

As used by many top Superbike & Motorcross teams, SamcoSport offers a great range of race tested, direct replacement silicone hose kits, providing many benefits over factory fitted hoses. Available for a wide range of Street & Dirt/Off-Road bikes for both serious motorsport and recreational use - available in 15 colour options.

All SamcoSport hoses are hand crafted in the UK using the finest quality European materials and are all 100% visually inspected to ensure they are the best hoses money can buy.

**Why Choose SamcoSport?**

- Longer Life
- Extreme Durability
- Lowers running temperature by up to 5°C (9°F)
- Extremely high burst pressures
- Single moulded 'Y' shape hoses reduce leaks & joint failure

**As used by...**

- MSS Kawasaki Superbike Team
- Parkalgar Honda Superbike Team
- BMW World Superbike Team
- Motovision GP Team
- Phase One World Endurance Team

For the custom application, SamcoSport offer the largest range of Universal Race Parts. These are ideal for the serious motorsport user & can be used for bike applications that are not included in our direct replacement hose kit list. Our range of Universal Race Parts includes an array of elbows, straights, reducers, couplers & T-Pieces so any plumbing configuration is possible.

To compliment our extensive range of silicone hose, we offer a range of high performance hose accessories. Stainless Steel hose clips are available in kit form to suit our direct replacement kits and are also available in bags of the same size, for use with our universal race parts. A selection of hose joiners are also available.

**What the Professional's say...**

*"Obviously being a factory supported team we have to be extremely careful with whose products we endorse for use on our bikes. SamcoSport products exceed all of our requirements not only in the quality of the hoses, but the fitment, flexibility & understanding of our requirements".*
